They are the pre-drill sampling dates provided by Cabot's sampling data..just the earliest sample taken..

..... there is a spreadsheet in the Cabot 104 submission. I'm getting it from Humane since it wasn't scanned into the 
drive it turns out but it has the drilling/ spud dates for the wells.
I'll send it when I get it PDF'd

Thanks, I believe I have the predrill spread sheet. What I am trying to find is the location of the gas wells and they dates they were worked.

In your spreadsheet you note predrill dates; how did you determine these dates?

thanks
Rich

Ex. 6 - Personal Privacy

Rich- it is posted on the Ex. 6 - Personal Privacy as above. The "Dimock 10" PDF has all the wells. The middle file PS, the other part of the "map" folder has the pre-drill locations plotted as what we got from Cabot in the 104

Here is a spread sheet I put together of the pre-drill data

Hi Karen,

Do you have an electronic copy of the map of the Dimock area with gas well data? I would like to get a copy if you do please.

thanks
Rich
